Peace and Allah's mercy and blessings be upon you

Amen O' Lord of the universe

Thanks my brother for the wise response and by Allah and Allah willing I will repay you the favor one day in a battle or in what Allah has predestined for us

My brother in Allah you can't imagine the joy that fills my heart to be of the soldiers of Allah the Almighty in the ranks of the Shaykh the lion of Islam Usamah may Allah prolong his life and grant him success in every endeavor he and those who are with him and you and I Allah willing

For by Allah the Great on the same day that you and I met I went to sleep and saw an honorable vision

And I believe that it is a door to good things Allah willing

I saw myself ready to go for His sake myself and three people and I had gone from the borders that are located in the Levant countries of Jordan and Syria and Lebanon until I reached the borders in the midst of the enemy and there my three friends abandoned me and they left me and went away and I didn't have a weapon in my hands or anything else but I was confined in a village in which I didn't know where to start so I came down a stairway and found a young man whose appearance was like that of the Shaykh and he had a short beard and his foot had some injury or pain and I told him my story and Allah facilitated for me that he was from those who help the mujahidin and teach them how to build jihadist cells and he started by reading the Qur'an upon his foot and I helped him to stand up until he took me on his path to what I know so Allah willing this will be the start of good things and that Allah has destined victory for me and you and the mujahidin and I would like to tell you something else I once saw myself fighting along with the Messenger of Allah Allah's peace and prayers be upon him in a big heated and fierce battle astride a mare until the battle ended and I returned to my house victorious and he then came to me and gave me a small thing and he said to me time will come when you open it and know what it is

I also saw all the messengers and the prophets however of those that I remember were Abraham and Moses and Jesus and Joseph peace be upon them and they gathered in a big and great palace and its door was as the world and was made of glass and diamond and they were talking or gathering around me in circles as if they were talking about me so

perhaps all this will be Allah's will for me in His way for jihad in His path and a victory for the Muslims everywhere and the forthcoming conquest and the destruction of the apostates and the return of the Islamic conquests and the liberation of Palestine and the prayer in al Aqsa and the destruction of the agents and tyrannical rulers among them Allah willing

And I have another recommendation my brother I have now put my trust in Allah and in you and I put myself in your hands and I thank you for your concern so may Allah bless you and I say that you will never forget me no matter what happens to you and may Allah protect you even if you had a friendly entity that is aware of my communication with you should the communication break off between you and me and this is only if there is a communication break off and that there be a code word between you and me chosen by you so that I would know for sure who is in contact with me and Allah willing I will have departed for jihad or the training camps before anything Allah forbid for caution is necessary as well as the reliance is upon Allah as you had said and Allah willing I await your reply and Allah willing we will have a meeting soon
